

Revenue Per Share

✓ View All Terms

Amount of revenue over common shares outstanding. Answers the question, what's the ownership of sales to each share? Increasing revenue per share (RPS) over time is a good sign, because it means each share now has claim to more revenues.

For instance, if a company generates 500 million in revenues and has 100 million in common shares outstanding, the RPS is five. For each share outstanding, the company is generating five dollar in sales.

Formula

Revenue Per Share (Quarter) = Quarterly Revenues / Common Shares Outstanding Revenue Per Share (TTM) = Trailing 12 Month Revenues / Common Shares Outstanding from the most recent quarter
